

List of Materials

The Hampton Roads Naval Museum Library provides research materials to support the interpretation of the history of the U.S. Navy in and around Hampton Roads. The Library provides materials covering naval history from the earliest days to the present day.

The Library contains materials associated with the activities of naval ships and personnel with a connection to the Hampton Roads area as well as general naval and military history. In addition, the Library collects materials associated with the battleship Wisconsin, and the Jamestown Exhibition of 1907.

The Library is available to the public for research purposes during museum hours when a library staff member is present. The collection is non-circulating and is restricted to room use. Interlibrary loan of materials to other research libraries is subject to such restrictions and regulations as the librarian shall specify.

The current collection numbers over 2,000 volumes. A catalog in Microsoft Access format is currently being converted to allow for the creation of an online catalog in standard library format. In the interim, a listing of materials by Library of Congress call number is provided below.
